

MANY DELAY CARE, EVEN WITH COVERAGE

When patients lose their jobs, they frequently forfeit health insurance as well. Not all do, but even those who maintain coverage can have a difficult time affording medical care. Figures are from 2009-2010.

Percentage of adults 18-64 with public, private or no insurance, by employment status:

Percentage of adults 18-64 who delayed or did not receive needed medical care due to cost, by insurance and employment status:
